

ONNEC IN THE NORDICS

Your trusted partner for IT Infrastructure design, delivery & operational support services across the region.

As key hyperscale and data centre operators look to embrace the land and climate advantages of the Nordic region, Onnec is ideally located to support these growth plans, with 75+ specialists across Denmark, Sweden and Norway. With over 30 years of experience, Onnec is a leading provider of world-class IT infrastructure design and installation. Our on-the-ground teams deliver best-in-class data centre support services through every stage of your project life cycle.

DELIVERING EXCELLENCE

Local presence

With a home-grown team of 75+ engineers and technical specialists across Denmark, Norway and Sweden, trained to the highest industry standards.

Simplified supply chain

Our global partnerships with leading vendors allow us to act as your single point of contact, ensuring a simplified and predictable supply chain.

Committed to health & safety

Our customers benefit from decades of experience with highly trained teams, committed to quality, health & safety and adhering to industry standards.

Trusted at the top

For 30+ years our high quality of work has been rewarded with the trust of numerous blue chip companies in more than 40 countries.

OUR SERVICE CAPABILITIES

No matter how big or small your project is, our team of engineers have the experience and expertise to meet your needs. It's why our loyal and long-standing customer base trusts us.

DATA CENTRE FIT-OUT

From design to completion, we will manage all aspects of your fit-out:

- Copper & Fibre installation
- Rack & Stack
- Network & server cabinet installation
- Hot and cold aisle containment solutions
- Cabling containment
- Security cages
- Product procurement
- Project management

SMART HANDS SUPPORT

Working alongside your team to provide specialist maintenance support:

- IMACD - Install, Move, Add, Change, Decommission
- Relocation/Data migration
- Cabling "patching" support
- Cable tidy up
- Audit control & asset management
- IT asset recycling
- Dedicated technical project management

So, what makes us different? Let us show you in more detail – and demonstrate why global organisations trust our end-to-end services through every stage of their infrastructure lifecycle.

We can support your data centre with our expertise in end-to-end solutions from design and deployment to management and support.

And Onnec adopts a smarter life cycle management approach. From procurement to asset recycling, we focus on delivering a transparent supply chain, aiding your Scope 3 reporting requirements.
